

# Universal NUTLOC™ Fittings

Connecting drip tubing or dripline of diverse dimensions

## Versatile DIG NUTLOC™ Fittings Simplify Drip Tubing & Dripline Connections Across Sizes

DIG's Universal NUTLOC™ Drip Fittings provide a flexible way to connect various drip tubing and dripline sizes (1/2" to 5/8"). Designed for commercial, residential, and agricultural use, these durable, UV-protected plastic fittings offer secure connections without requiring exact measurements.

### Features

- Compatible with .530, .600, and .620 ID drip tubing and dripline (equivalent to .630 to .710 OD, or 16, 17, and 18 mm) with a wall thickness between .040" to .050" (1.02 mm to 1.27 mm).
- Available in various configurations, including couplings, tees, and elbows, with optional 3/4" swivel hose or pipe threads, screens, or washers.
- Reusable fittings for extended life; easily removable and reusable.
- Two-part design with threaded nuts and barbed body, available with or without a swivel thread.
- Resistant to common fertilizers used in residential and commercial applications.
- Constructed from high-impact, UV-resistant plastic for durability in harsh environments.
- Suitable for above-ground or subsurface installation.

# Universal NUTLOC™ Fittings

Connecting drip tubing or dripline of diverse dimensions

## Specifications

- **Operating Pressure:** Up to 60 PSI
- **Color:** Black body with brown threaded nuts
- **Compatibility:** For use with 1/2" to 5/8" drip tubing or dripline
- **Material:** Polypropylene used for both the barbed body and nut

## Key Advantages

- **Universal Compatibility:** These fittings work with all standard drip irrigation tubing, dripline and emitters, making them a versatile solution for any system.
- **Easy Installation:** No special tools or skills are required – simply push the tubing into the fitting and hand-tighten the nut for a secure connection.
- **Strong Hold:** The nut lock design ensures a leak-free connection that resists vibration and movement, keeping your system stable even in challenging conditions.
- **Versatility:** Available in a variety of configurations, these fittings are suitable for a wide range of applications, from residential to commercial and agricultural systems.
- **Reusability:** The fittings can be easily removed and reinstalled, allowing for easy modifications or expansions to your system.

DIG's **Universal NUTLOC™ fittings** are used to connect drip tubing and dripline to water sources, create branching lines, or link different tubing types. They are crucial for customizing and securing drip irrigation systems, offering a simple, reliable, and flexible solution.

### How to specify

#### Universal NUTLOC™ Fittings

	15-070UNC	1/2" NUTLOC™ Coupling
	15-071UNE	1/2" NUTLOC™ Elbow
	15-072UNT	1/2" NUTLOC™ Tee
Universal NUTLOC™ 3/4" FHT Swivel		
	15-073UNES	3/4" FHT NUTLOC™ Swivel Elbow with Screen
	15-074UNTS	3/4" FHT NUTLOC™ Swivel Tee with Screen
	15-075UNES	3/4" FHT NUTLOC™ Swivel Elbow with Washer
	15-076UNTS	3/4" FHT NUTLOC™ Swivel Tee with Washer
Universal NUTLOC™ 3/4" FPT Swivel		
	15-077UNES	3/4" FPT NUTLOC™ Swivel Elbow with Washer
	15-078UNTS	3/4" FPT NUTLOC™ Swivel Tee with Washer
